EDUCATION

2015 - 2020
Boğaziçi University, Istanbul/Turkey
Computer Engineering, Bachelor of Engineering
Related Courses:

Introduction to Object Oriented Programming	Fall 2018:
Discrete Computational Structures	Analysis of Algorithms
Data Structures and Algorithms	Operating Systems
Machine Learning	Probability and Statistics
Systems Programming	Computer Organization
Digital Systems	Operations Research
Principles Of Programming Languages	Launch a Successful Software Startup

EXPERIENCE

12.2015 - 07.2016
Freelance Android Developer

08.2016 - Present
Open Source Developer

09.2017 - 01.2018
Undergraduate Teaching Assistant, Boğaziçi University - Introduction to Computing

06.2018 - 07.2018
Research Internship, Boğaziçi University - PILAB-SIGMA Research Group

07.2018 - 09.2018
Internship, TÜBİTAK BİLGEM - Software Technologies Research Institute

09.2018 - Present
Undergraduate Research Assistant, Boğaziçi University - PILAB-SIGMA Research Group

CERTIFICATES

10.2016, **Machine Learning** by Stanford University (Andrew Ng)

02.2017, **Cybersecurity Winter Camp 2017** by BUCYBER

08.2017, **Neural Networks and Deep Learning** by Andrew Ng

01.2018, **Improving Deep Neural Networks:**
Hyper-parameter tuning, Regularization and Optimization by Andrew Ng

07.2018, **Computational Neuroscience: Neuronal Dynamics of Cognition**
by EPFLx (Wulfram Gerstner)

SUCCESSFUL SIDE PROJECT

09.2017, Course Selection Helper for Boğaziçi University Students
